2022-23 Illinois Liquor Control Commission Direct Wine Shipping Report
Submitted to the Illinois Governor and General Assembly Pursuant to P.A. 095-0634

I. Background

Pursuant to Public Act (P.A.) 095-0634, enacted by the General Assembly in June 2008, all winemakers located in Illinois and other states may ship wine directly to consumers after obtaining a winery shipper's license. In addition, the law permits a winemaker to apply for a self-distribution exemption which allows small wineries (producing less than 25,000 gallons annually) to sell and deliver up to 5,000 gallons of wine directly to Illinois retail license holders. As it bypasses the wholesaler, selling wine directly to consumers and retailers is a limited exception to Illinois' three-tier system for alcoholic liquor sales and distribution. P.A. 095-0634 was necessary as a response to the 2005 U.S. Supreme Court decision, *Granholm v. Heald*, which prohibits discrimination against out-of-state producers of alcoholic liquor in favor of in-state producers. If a state permits its in-state wineries to ship directly to consumers and retailers, it must also permit out-of-state retailers to do the same. Thus, P.A. 095-0634 authorizes the Illinois Liquor Control Commission (ILCC) to issue permits/licenses to all in-state and out-of-state wineries to ship wine directly to consumers.

Section II of this document shows the data collected as required by the Illinois Liquor Control Act and is now reported.
